Digital CCTV CCD Professional Camera

Features

In conjunction with VisionNet Digital Video Recorder system, we also developed a series of CCTV Cameras with excellent image quality and fast frame rate transmission to meet different customers' needs. With support of Motion Detection System, applications for event-triggered transmission, and transmission of high streams video at 25Frame/sec(PAL) or 30Frame/sec(NTSC), this series are professional surveillance cameras for the future-proof security system.

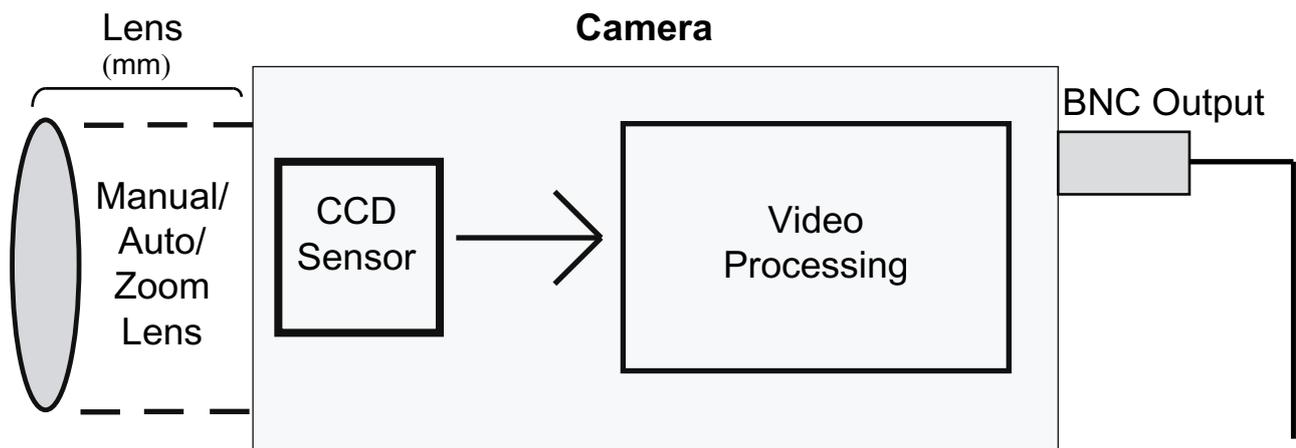

Cost-Effective and Easy Installation

As most settings and adjustments have been done beforehand, customers can install all kinds of cameras easily in just few minutes. And most functional compartments have built into Digital Video Recorder, as a result, VisionNet are able to provide CCD CCTV Cameras at excellent Quality/Price ratio.

Easy Change of Lens

User can change the lens of VisionNets' CCTV Camera easily to suit their different needs. We provide 3.6mm/4mm/6mm/8mm/12mm/16mm lens with Manual/Auto/Zoom Focus.
